The Hyatt Women's Experience

In 2012, Hyatt conducted an 18 month study on female travelers which included over 40 focus groups of women from around the world. The goal was to try and determine what female travelers are looking for and how Hyatt can make you feel more at home while on the road. The Hyatt Regency McCormick Place is proud to participate in Hyatt's new Women's Experience program with some new offerings to help make your stay more comfortable!

- Assurance of a clean guest room. Room attendants now place personalized cards in every guest room after it has been cleaned which not only assure you of a thorough cleaning, but allow the room attendant to make a personal connection.
- Hyatt's new "**Hyatt Has It**" program: forget a cell phone charger, curling iron, razor, make up remover, steamer... you name it! Hyatt Has It! Items can be borrowed complimentary or purchased onto your guestroom depending on the nature.
- New menu options including fresh juices, smoothies, balanced portions, and a "create your own" meal option. Create YOUR perfect plate with a selection of proteins, sauces, vegetables, and sides.
- No more generic shampoos and soaps. All guests at the Hyatt Regency McCormick Place now enjoy upgraded bath amenities and products from KenetMD Skin Care.
